

Tolling (Processing on commission)

Kristall Production Corporation, first-rate diamond producer in Russia and DTC signholder, offers professional services in tolling (processing diamonds on commission).

For producing we accept lots of diamond rough of any color and quality from 4 grainers and higher, including diamonds of special sizes (from 11 carat and up).

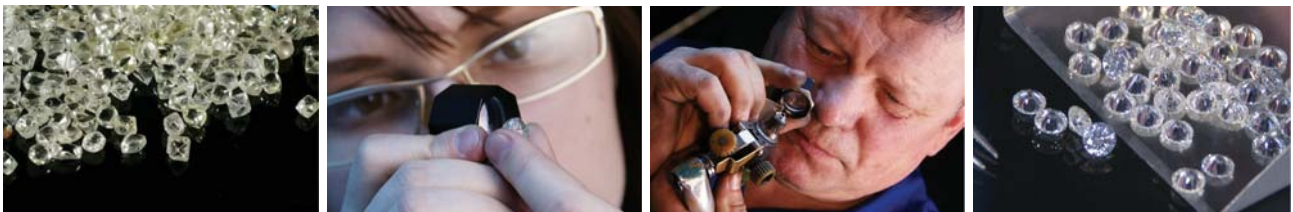

Basic cost of processing standard categories of diamond rough is given in Table No1 (see the next page). Specific needs of a customer would be the subjects of an additional agreement.

We guarantee high cut quality according to classic parameters of “Russian Make” in the shortest possible time.

We also offer additional services:

- processing of diamond rough according to required parameters;
- laser marking of polished diamonds;
- development and processing of special fancy shapes.

Moreover, polished diamonds processed in accordance with “Russian Make” parameters may be accompanied by certificates of authenticity.
