

KRISTALL PRODUCTION CORPORATION

MEDIA RELEASE

February 19, 2016

Kristall Production Corporation is pleased to announce its participation in the Hong Kong International Diamond, Gem & Pearl Show that will take place at AsiaWorld-Expo (AWE) on 1 - 5 March, 2016.

Within the frames of the show, at Kristall's booth, wholesale and retail buyers will be offered a wide assortment of certified "Smolensk Make" diamonds of various cuts, sizes, colour and clarity grades, as well as exclusive polished diamonds.

The company's specialists are ready to consider any orders from both wholesale and retail buyers, and render any necessary consulting services concerning manufacturing and purchasing polished diamonds.

We are very proud to announce that for the first time ever, outside the Russian Federation, visitors will be offered a unique opportunity to see an exceptional work of contemporary jewellery art – the replica of the Great Imperial Crown of the Russian Empire.

The replica was created in honour of the 400th Anniversary of the Romanovs' Royal Dynasty, the 250th Anniversary of the coronation of Catherine II (Catherine the Great) and the semicentennial anniversary of Kristall Production Corporation.

The replica of the major regalia of the Imperial House, as well as the "Smolensk Make" diamonds, cut and polished at Kristall, will be displayed at AWE Hall 2, Booth No. 2-S21.
